DETAILED ACTION

Allowable Subject Matter

1. Claims 1-4 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest a method for detecting failure in a piezoelectric element on a head suspension for a disk drive having the steps of clamping one end of a head suspension under test; mechanically displacing and rapidly releasing the other end of the head suspension under test; and comparing the electrical output of the piezoelectric element to determine if the piezoelectric element on the head suspension under test is properly functioning, as recited in the independent claim 1; an apparatus for detecting failure in a piezoelectric element on a head suspension for a disk drive having a clamp connected to one end of a head suspension under test; a motion actuator in mechanical contact with the other end of the head suspension under test and operative to mechanically displace and rapidly release the other end of the head suspension under test; a signal processor system operative to compare the output of the piezoelectric element to determine if the piezoelectric element on the head suspension under test is properly functioning, as recited in the independent claim 3, and in combination of the claims.

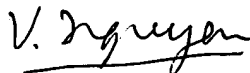

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
